

PROPOSAL

Listen to the Personal Stories of Displaced Migrants

Practice inclusivity by coming together as a work team to listen to the stories of refugees in Germany, while supporting programs that provide safe spaces for displaced migrants to integrate into their new communities.

LIBERTY 
EXPERIENCE

2021

WHAT YOU'LL DO

For this experience, your team will have the opportunity to listen to up to five different individuals about their displacement from their home country, and their subsequent relocation to Germany.

The session will begin with a brief summary about the speakers' lives. After hearing these introductions, you and your team will split into groups to interact more closely with at least one of the speakers. Depending on the number of participants, the groups will consist of up to eight participants. In these breakout groups, you will hear details about a displaced migrant's authentic experience, with the opportunity to ask questions and if possible, offer brief coaching to the speaker.

Finally, the group will reconvene for a general Q&A and to share your takeaways.

HOW YOU'LL MAKE IMPACT

Liberty Experience provides safe spaces and opportunities for displaced migrants to integrate and economically contribute to the German community. Through our music-powered activities, we concretely contribute to the SDG 10.2: "Empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status".

By participating in this session, you will support our mission through the following specific (2021) goals:

- Give 50 musically talented refugees platforms to build their own brands
- Provide opportunities to 150 refugees integrate into the German community

IMPORTANT STATISTICS

Germany has one of the highest numbers of refugees of any country worldwide.

Since 2013, an average of **3,500 migrants/year** are reported dead or missing in Mediterranean

Wealthier countries **can do much more** in protecting people who have left everything behind.

As at 2020, at least **2million refugees** (or with refugee background) live in Germany.

About **130,000 refugees** settle in Germany every year.

Appeals for humanitarian assistance for refugees are **consistently underfunded**.

TESTIMONIALS & COMMENTS

// Thanks so much for sharing your individual stories! I'm left pretty speechless and wondering what specific actions could have helped to prevent these harsh experiences, and what could help you and other refugees going forward to overcome the obstacles you are still facing.

I found today's session with Sally, John and Princewhite very inspiring and helpful to get a better understanding of the many challenges and risks people take on with the hope to improve their situation. And it really makes me sad that our world is in such a shape that forces people into these situations. Thank you for providing this insight. I also like what Liberty Experience is doing to help those people. It's a great program and I'm happy we were able to support it.

// Hearing from people like John directly has a different level of impact than what we see on the media. This kind of experience could make a profound impact on people you communicate, and I am very respectful for your efforts.

Thank you again for a touching story. It is important for all of us to have more awareness, to be openminded and act more as a community than as individuals.
